

OMNISPORT® HS-200 HORN/GUN AND PUBLIC ADDRESS SYSTEM

The OmniSport HS-200 horn start and public address system is a complete starting solution for aquatics and track. Features include a rechargeable battery that will last for more than 15 hours on a full charge. The recall feature can be enabled or disabled depending on the officials' preference. The HS-200 horn start can be programmed to sound a typical start tone or emulate a gun sound.

PRODUCT SPECIFICATIONS

- DIMENSIONS:** Height 12", Width 8", Depth 14" (305 mm, 203 mm, 356 mm)
- WEIGHT:** 14 lb. (6.4 kg)
- POWER:** 120 V, or rechargeable battery (15 hour life on full charge)

 5. Individual Lane Speakers

HS-200 PRODUCT SPECIFICATIONS (CONTINUED)

- HS-200-R OPTION:**
1. HS-200-R is FCC approved.
 2. HS-200-R includes an internal receiver.
 3. The standard microphone plugs into the belt pack or directly into the HS-200-R. The belt pack is worn by the official allowing them the freedom to position themselves in the most effective location.
 4. LED indicators on the HS-200R show the selected channel, the voice activation and identify interference (noise).
 5. A channel button is on the belt pack and on the unit to change the current channel. There are 8 channels to select from.

1. Internal 40 W Speaker
Amplifies voice and start tones loudly and clearly.
2. Powder coated aluminum case
Provides long-term protection.
3. 360° strobe light
Offers high visibility for athletes and officials.
4. Handle
Simplifies setup and transport.
5. LED indicators
Communicate the status of start/recall and whether the battery is charging, full or low.
6. Microphone
Provides convenient operation for voice and start/recall tones. Unit comes standard with a 15' extension cable.
7. Separate volume control
Allows independent control between the main/auxiliary and lane speakers.
8. Separate speaker connections
Provide built-in outputs to the main/auxiliary and lane speakers for maximum performance.
9. Power jack
Provides input for universal 12 V AC power pack.
10. Start output
Offers normally open and closed contacts for connection with Daktronics and other timing systems.
