

## DA-1000 SQUARE DECORATIVE ACCENT PRODUCT SPECIFICATION

The square truss adds decoration to any outdoor display. Constructed of painted aluminum tubing and flat bars, truss can be added to the top or bottom of scoreboards. Truss shown with optional lettering and logos.

### PRODUCT SPECIFICATIONS

Model	Height	Length	Depth	Weight
DA-1000-18	2'-0" (610 mm)	18'-0" (5486 mm)	3" (76 mm)	200 lb (91 kg)
DA-1000-20	2'-0" (610 mm)	20'-0" (6096 mm)	3" (76 mm)	225 lb (102 kg)
DA-1000-25	3'-0" (914 mm)	25'-0" (7620 mm)	3" (76 mm)	275 lb (125 kg)
DA-1000-28	2'-0" (610 mm)	28'-0" (8534 mm)	3" (76 mm)	325 lb (147 kg)
DA-1000-32	4'-0" (1219 mm)	32'-0" (9754 mm)	3" (76 mm)	400 lb (181 kg)
DA-1000-36	3'-0" (914 mm)	36'-0" (10973 mm)	3" (76 mm)	375 lb (170 kg)

- CONSTRUCTION:** Durable aluminum tubing.
- COLOR:** More than 150 colors (from Martin Senour® paint book) are available at no additional cost.
- MOUNTING:** The truss is typically mounted on vertical beams. The number of vertical beams is determined by the length of the scoreboard: -18, -20, -25 use two vertical beams; -28, -32 use three vertical beams; and -36 uses four vertical beams.
- LETTERING/LOGOS:** Logos/lettering should avoid exceeding 14" above the truss or covering more than 50 percent of the truss, otherwise additional costs will be incurred. Screenbacking is required to mount logos/lettering.
- GENERAL INFORMATION:** This truss is shipped in one section and includes hardware to mount it on the allotted number of beams. The longer trusses may be shipped in more sections. Hardware for additional beams is available at an additional cost. Specifications and pricing are subject to change without notice.

# DA-1000 SQUARE DECORATIVE ACCENT PRODUCT SPECIFICATION (CONTINUED)
