DA-1001-36	5'-0" (1524 mm)	36'-0" (10973 mm)	3" (76 mm)	425 lb (193 kg)

- CONSTRUCTION:** Durable aluminum tubing
- COLOR:** More than 150 colors (from Martin Senor® paint book) are available at no additional cost.
- MOUNTING:** The truss is typically mounted on vertical beams. The number of vertical beams is determined by the length of the scoreboard: -16, -18, -20, -25 use two vertical beams; -28, -32 use three vertical beams; and -36 uses four vertical beams.
- LETTERING/LOGOS:** Logos/lettering should avoid exceeding 14" above the truss or covering more than 50 percent of the truss, other wise additional costs will be incurred. Screenbacking is required to mount logos/lettering.

DA-1001 ARCH DECORATIVE ACCENT PRODUCT SPECIFICATION (CONTINUED)

GENERAL INFORMATION:

This truss is shipped in one section and includes hardware to mount it on the allotted number of beams. The longer trusses may be shipped in more sections. Hardware for additional beams is available at an additional cost. Specifications and pricing are subject to change without notice.

WARRANTY/SERVICE PLAN:

Standard limited warranty in the U.S. and Canada (see SL-02374 for more information).

OPTIONS:

1. Screen backing
2. Lettering, logo and advertising sheet metal cutouts
