Dear Potential Customer,

On behalf of Daktronics and our 2,800+ employees in the United States, thank you for considering Daktronics as your video, audio and scoring solution provider. In a world where you have numerous choices for your scoring vendor, I’d like to share the top three reasons customers select Daktronics time and time again.

Our customers want to:

1. **Increase Entertainment**
   To entertain fans and show your commitment to excellence, you need a system that looks and sounds great. At Daktronics we are the only company to design, build, test and service all of our products before we take them to the market. For you, that means your money is well spent and your scoring/video/audio system will look and sound great for years to come.

2. **Generate Revenue**
   If you are like most schools, you plan to sell sponsorships on your scoring and/or video system. Our team helps schools generate more revenue than most schools think is possible. Once you set sponsorship prices, you can’t go back. Our team has over 1,000 successful projects across the U.S. to help make sure you are getting the most out of your system.

3. **Develop Students**
   Students that work on Daktronics systems are uniquely positioning themselves for future careers. Daktronics systems are common in not only in high school stadiums but in college and professional stadiums as well. That means your students have the unique opportunity to learn a system today that will pay dividends later in life.

We thank you for valuing our commitment to quality products, professional services and the future leaders of our industry. We also thank you for making Daktronics the most trusted scoring and video manufacturer for the last 50 year and look forward to having you along for the ride for the next 50!

Kyle Sydow
High School Park & Recreation Market Manager
ON & OFF THE FIELD

Imagine your perfect game day. The sun begins to set, the field lights pop on, and your stadium (or gym) comes to life. The crowd is fueled with energy as your video display and audio system prompts them to get louder and louder. It’s adrenaline-pumping, true excitement.

This is where it starts—you create an atmosphere unlike any other. Each moment throughout the game matters.

We're here to help you make these impacts by breaking down the 3 major goals of game day:

GOAL 1: BUILDING THE ENVIRONMENT

Excitement, anticipation, suspense—they all make up a game day. But without impactful content, you might be falling short of the ultimate game-day experience.

Daktronics video displays bring fans back game after game. It's not just the display. The content you play coupled with the booming audio creates an unforgettable experience.

GOAL 2: CREATING STUDENT OPPORTUNITIES

The extra-curricular activities are endless when it comes to involving students. They can build skills to prepare them for future careers in the industry.

Scoreboards and video displays provide exclusive, hands-on opportunities within the classroom, creating content and operating the same control equipment used in professional venues.

GOAL 3: CLOSING FUNDING GAPS

Nationwide, schools generate thousands of dollars in annual sponsorship revenue through their scoring system, thanks to our Daktronics Sports Marketing Team.

Once paid off, the additional revenue flows into other funding areas for your school. Local co-ops and leasing options also save schools time and money.

THE BEST OF THE BEST

You're never alone in any part of this process. When it comes to meeting any one of these goals, we're here to help you reach your highest potential. Still on the fence? The following pages highlight how you can bring a stunning audio visual experience to your school.
MULTIPLY THE MOMENTS

Have you thought of the impact your display could make outside of athletics? Sports are a big front runner for video display owners, but you can use your display in so many other ways!

MAXIMIZE EACH EVENT

Celebrate each event using the variety of live video options, adding even more value to your display.

› Use recorded video files, including mp4, avi, mov and many more.
› Play movies through DVD players or Apple TV.
› Review film and stats on apps like Hudl and YouTube.

SCHOOL DANCES

Take your school’s dances to a whole different level. Host a dance-off with videos of dance moves; thank your volunteers and sponsors; and even stream music videos to add hype.

GRADUATION

Make graduation day more intimate for students and families by sharing videos of the year, birth to senior year pictures, and a live video stream of speakers and graduates as they receive their diploma.

PEP RALLIES

Pump up your students at one of the most energetic school functions by showcasing your school’s fight song lyrics, live raffle drawings, and even sharing spirited social media posts.

BRING ‘EM TO THEIR FEET

You receive a standard media kit with your display purchase! We also offer a variety of stock animation packages, created by our skilled digital artists, that will add excitement and energize your fans to get into the game.

WANT MORE CUSTOMIZATION?

We can do that too! Our Team Spirit animations incorporate your team logos and colors into professionally created packages. Each package adds an extra touch of team spirit, engaging your players and fans.
CLASSROOM TO CAREER

Your students can play a critical role in your game day — you just need to give them a chance to control the show. Our scoring systems provide endless opportunities, making exciting curriculum additions possible.

EXCITING EXPERIENCES OUTSIDE OF SPORTS

Maximize your video display’s value. Create non-sport experiences for your fans and students. Draw on your live video options to create memory-making events:

› Use recorded video files, including mp4, avi, mov and many more.
› Play movies through DVD players or Apple TV.
› Review film and stats on Apple TV apps like Hudl and YouTube.

EXPLORING OPPORTUNITIES

Not all students find their place on the court. Those who love to write, produce video, and create graphics hone their skills in Adobe Photoshop, Illustrator, and Premier software by creating content for your school’s display.

These skills are great résumé builders, making students even more marketable at the collegiate level and beyond.

CURRICULUM ENHANCEMENTS

Get the most out of your Daktronics scoring system by providing the best educational experience. We’ll help guide you to create an engaging production class at the high school level.

Incorporating your Daktronics video displays in the classroom provides students an unmatched opportunity to use state-of-the-art technology, cultivating a student-driven and community-involved experience.

NEXT-LEVEL EXPERIENCE

Most collegiate and professional sport venues use the same control system we provide high schools. When students have the chance to train with this software, they gain valuable skills that are then easily put to use in real-world industry applications.

Not only are you preparing them for the next steps after high school, you’re also paving their way for careers in similar fields after graduation.
SPORTS MARKETING

ACHIEVE & EXCEEDING EXPECTATIONS

When you envision your scoring system, a common roadblock might pop up in your head: price. The idea of “What do we want” quickly changes to “What can we afford?” But what if we told you that you can have all of your wants? This is where our sports marketing team comes in and helps you create an annual revenue stream through advertising and sponsorship within the community. Sponsorships done the right way can get you your whole scoring system vision paid for and even fund other areas of your program.

Our team provides the tools needed to gain sponsors and the resources to keep them happy for years down the road so you don't need to feel the pressure of doing this all on your own.

The best part? It's at no additional cost to you!

We work with schools and universities every day, setting up plans and ensuring you reach your sponsorship goals quickly.

Don’t leave money on the table and settle for less than you envisioned. Put our sports marketing team to work.

THE SMART CHOICE

Daktronics Sports Marketing team can help you create an annual revenue stream through advertising and sponsorships. Our team provides the tools needed to gain sponsors and the resources to keep them happy for years down the road.

LEASE TO OWN

Do you prefer making payments on a schedule? Do you want to own your product after all payments are made? Learn more at DAKTRONICS.COM/FINANCING

BENEFITS FOR YOU

› Stretch your budget dollars over multiple budget cycles.
› No down payment required.
› Fast and easy application process.
› Payments start after your system is fully installed and operational.

CO-OP PURCHASING

With a Daktronics-approved bid, you can save time and money in the buying process through your state’s purchasing co-op. To fund your next scoreboard, video display and more through your local co-op, contact your local sales representative or visit DAKTRONICS.COM/CONTACT

So where do all those parts within your system come from? Good question. Daktronics controls the entire process, including the sourcing of our products’ components. We evaluate each individual component to ensure it lasts long term. No shortcuts, no cheap parts, no surprises.

When choosing your video solution, ask where the product originates, as many companies buy the display sections overseas and assemble locally. To ensure display longevity and customer satisfaction, Daktronics strives to be the one responsible source.

Once those parts form a fully functioning system, we use a wide variety of systems and testing equipment, some similar to those used by the automobile and aerospace industries, ensuring the longevity of our products. In other words, we test and test again.

**HIGHLY ACCELERATED LIFE TESTING**

Each product is stressed to the point of failure by combining temperature shock and vibration to determine functioning limits.

**WATER INTRUSION**

Displays get drenched by high-pressure water jets to test how well enclosures protect internal components against moisture.

**SALT FOG**

A 5% salt solution and sweltering heat up to 95° F (35° C) gauge a display’s ability to withstand the corrosive coastal air.

**ENVIRONMENTAL SIMULATOR**

Entire displays get sent through blistering heat, freezing temperatures, and humidity to test durability.
What's better than a scoring system on its own? A display and audio system that work hand-in-hand to serve all purposes of your game day. We're giving you the opportunity to play video clips with embedded audio to your sound system for an immersive audio-visual experience.

Now you can bring the big league to your school’s backyard using live and pre-recorded video, along with instant replays, to ensure everyone in the stands catches all the game action.

› Panning
› Slow motion
› Animated titles
› Multiple video layers

SPORTS STATISTICS MADE SIMPLE
Daktronics statistics software manages game, season and career statistics.
It is used at all levels of play for tracking stats and compiling in-depth statistical reports.
Enter live game statistics using the intuitive play-by-play entry mode, or use the box mode for post-game stat entry. Printouts are provided by the software for game and player analysis.

*Daktronics Scoring-Timing Interface (sold separately) is required to show stats on LED displays.

BROADCAST LIVE STATISTICS TO THE INTERNET
Use DakStats Webcast to broadcast live play-by-play scores and stats of your games to draw attention to your athletic program. DakStats Webcast provides live sports information to fans or alumni who are unable to attend games.

TWEET FROM DAKSTATS
DakStats software can automatically suggest tweets to send, filled in with up-to-date game information. You can also send your own tweets at any time so your followers will always be in the know.

SS-1500HD
DA-1000
Arch identification panel

Use a video display with zoned content areas and a sound system that fits your facility to create a dynamic scoring option. Personalize even further with a square truss and arch ID panel.

See the DVX & LVX Display Index on page 92 for all video display sizes.

“`We are using the new video display in conjunction with the video engineering class at our high school. The students will operate and oversee the video production at each home football game.”`

–Ken Paige
Facilities Director
Cartersville High School
GO DIGITAL
Our Go Digital Upgrade Package allows you to replace your scoreboard with a cost-effective video solution that enhances entertainment, increases student education and maximizes revenue. Geared to take schools from traditional scoreboards to video displays with the lowest possible investment.

EXISTING STRUCTURE. QUICK INSTALL.
Reuse your current scoreboard’s structure to mount your new display and minimize costs.

NEW SYSTEM. ENDLESS POSSIBILITIES.
Run real-time data on your new video board to easily customize any event: football, soccer, and track. At the same time, fresh, new entertainment options engage fans and boost your game-day environment to the next level.

Customization
Standard scoreboard templates are easy to modify and enable complete customization—simply drag and drop. Showcase names, animations or sponsor messages in place of score.

Flexibility
Matrix, or “universal,” scoreboards are a flexible scoring solution. Use one scoreboard for multiple sports or events on a shared field. Changing between different modes is as easy as pressing a button.

Hybrid Scoring
Pair with a scoreboard to ensure essential game score information and statistics remain visible no matter what content is showing on the display.

Universal Scoring
The following outdoor models are available as just a top half, specifically for pairing with a video display:

- MS-2028
- MS-2030
- MS-2029
- MS-2032

Digital Scoring
Video display featuring digital scoreboard and digital sponsors or message zones. Mounted to same structure.
The LEDs used for indoor video displays combine red, green and blue elements into one small package. Using a single package enables Daktronics to space LEDs extremely close to one another, forming displays with incredibly tight resolutions.

Two popular display sizes are showcased on this page:

160 x 288 6 mm
BB-3107

128 x 288 6 mm
BB-3121

Create the focal point of your gymnasium with a Daktronics indoor video system. Display zoning and video overlays offer prime real estate to recognize sponsors and showcase in-depth game information. Popular video display sizes are shown below.

See the DVN Display Index on page 92 for all video display sizes.
The Sportsound 500HD is designed to provide audio for a variety of outdoor facilities. The single-point system speakers adjust horizontally, providing even coverage and the ability to overcome crowd noise up to 15 rows high. This sound system provides intelligible speech and full range music for in-game announcements, rich music and halftime events.

Internal components of the single speaker configurations can be adjusted. These adjustment options offer installation flexibility without compromising on aesthetics. Installation time is minimal thanks to being fully assembled when shipped.

Daktronics digital audio façade combines next generation ProPixel® Freeform LED Sticks and a SS-1500HD sound system for an exciting avenue to get fans pumped up and generate revenue by displaying crowd prompts and sponsor information. A retrofit kit for an existing SS-1500HD is available.

The Sportsound 1500HD sound is suitable for outdoor facilities with an average max capacity of 8,000 fans. A step up from the 500HD model, the 1500HD has a broader coverage pattern and a higher decibel rating, better suited for longer throw venues. This system also works great in smaller facilities looking for that extra punch of sound. Both the speaker cabinet and control rack are fully assembled and ready to be installed right out of the box.

To feel the impact for yourself, schedule a free product demo daktronics.com/contact
Excite fans and increase revenue with our digital audio façade, combining next generation ProPixel freeform LED sticks and Sportsound sound systems. Synchronize audio and video while easily switching content when you want to. Sealed element housing protects internal components from harsh conditions.

The system is installed in a permanent position and provides even coverage and levels capable of overcoming crowd noise. The single-point sound system is fully assembled when shipped.
OUTDOOR ROADSIDE

Our outdoor message displays can install along a road or in front of a school or facility to inform passersby of special announcements. These displays can also promote events and showcase your scheduled content to keep the local community informed of school activities and student achievements.

INDOOR LOBBIES & SHARED SPACES

How are you communicating across campus? Did you know 97% of students prefer to receive their information digitally? Catch their eyes with displays that inform and inspire. Adflow Networks closes the gap by integrating digital displays seamlessly across an entire system, whether school or district-wide from one source. Manage all your postings with one device, wherever and whenever. Schedule content or update on the fly.

GO DIGITAL TO:

› Spread information
› Reinforce learning
› Enhance community
› Announce emergencies
› Aid wayfinding
› Reduce paper printing

Adflow’s turnkey solution requires zero IT involvement. They manage everything—from hardware to software, content and installation, training, monitoring and support—so schools can focus on their business at hand.

Discover the potential. Request a free product demo at daktronics.com/contact

ACCESS ANYWHERE, ANYTIME, FROM ANY DEVICE

Venus Control Suite is browser-based, so users can access the software from any device with an internet connection—smartphones, tablets, laptops and desktops. From basic to advanced, this system works for everyone.

ACCOUNTS

Manage displays and media for multiple schools. Personalize individual display rights for each school.

32 x 100
**PANAVIEW® DIGITS**

Daktronics PanaView® digits fully use the specific cone of light emitted by LEDs. This produces wider viewing angles and a brighter appearance than other LED digits. These digits are available in amber, red or white.

White LED digits are a rising trend for outdoor scoreboards. White digits complement any team color and create a modern, fresh-looking display.

To further customize the scoreboard, mix and match digit colors within one display. Clock digits can be red, while the score and stat digits are amber, or vice versa. This icon appears by scoreboards that are mixed digit capable.

- White
- Amber
- Red

---

**UNIVIEW® DIGITS**

Daktronics exclusive, patented UniView® digits provide the advantages of LED technology while retaining a clean, sleek “bar” look. This digit uses a specially designed diffuser to promote a uniform flow and dramatically increases the viewing angle of the scoreboard.

**COLORSMART® COLOR-CHANGING DIGITS**

Daktronics patented ColorSmart® digits respond to the ever-changing events of the game. ColorSmart LED technology follows the game’s events by changing colors between red, amber and green according to which team is ahead and whether the game clock is stopped, running or under one minute.

This icon appears by the scoreboards that are upgradeable with ColorSmart digit technology.

---

**WEATHER-SEALED DIGITS**

Don’t let corrosion bring your scoreboard down on game day. Daktronics weather-sealed digits have a 1/8 inch (3mm) layer of weather-tight silicone gel applied to the front and back of the digits. This gel completely seals out moisture, creating an unmatched resistance to the harshest of conditions.

This weather-seal significantly increases reliability and product performance. No other LED scoreboard manufacturer offers this kind of protection. Stay ahead of the game—and corrosion—with Daktronics weather-sealed digits.

- **DAKTRONICS GEL COATING**
  - A thick layer of gel adhered to the front and back of the digit completely seals out moisture.

- **CONFORMAL COATING**
  - A thin layer on the front and back gives minimal environmental protection.

---

**INDOOR DIGITS**

White LED PanaView® digits are also available for indoor scoreboards.

---

**WHITE LED**

PanaView® digits are robust and strong, specially designed for Daktronics Tuff Sport® scoreboards. They offer every money-saving advantage of LED technology and provide an outstanding viewing angle, outshining previous LED technologies.

White will complement any team color and can be used to create a modern, fresh-looking display.

1-800-325-8766 | DAKTRONICS.COM
THE MOST COLOR OPTIONS IN THE INDUSTRY
Daktronics is the only company providing 150+ color choices at no additional charge. Regardless of the color, Daktronics offers high-quality, long-lasting display finishes designed to resist fading due to ultraviolet rays. All Daktronics scoreboard paints and primers are lead-free and chromate-free, which makes the paint safer for the environment. For more specific information on scoreboard color options, please request the Daktronics Scoreboard Paint Color brochure.

TEAM NAME MESSAGE CENTERS
Daktronics Team Name Message Centers (TNMCs) are available for most indoor and outdoor scoreboard models and are excellent for tournaments and multi-school facilities. TNMCs feature cost-efficient LED technology and enable operators to display names of home and guest teams.

TEAM NAME
Change the HOME caption of the scoreboard to your school’s mascot or team name.

COLORED CAPTIONS
Select colored captions for the scoreboard to match the striping and school colors. Outlined captions are available for an additional fee.

STRIPING
Add striping to a scoreboard to coordinate with school colors. Choose from 50+ colors.

PERSONALIZE THE DISPLAY
Daktronics logo and sponsor graphics are digitally printed on flexible, waterproof vinyl or cut from solid colored vinyl. More than 700 pre-configured horizontal and vertical sizes are available to complement any type of display. Choose from numerous vibrant colors for your team logo or custom design.

RECOGNIZE SPONSORS
Give your valued sponsors the attention they deserve with a backlit or non-backlit sponsor panel. Backlit panels are illuminated with cool white LEDs for excellent night time viewing. The panels are encased in a durable aluminum cabinet and are mounted in the same fashion as other Daktronics displays.
Scoreboards are a necessity in any sports facility, but Tuff Sport® scoreboards are even more of a must have. Our scoreboards can withstand impacts from air-filled balls traveling at high speeds, so the game can always go on! Keep track of your home and guest scores along with individual players’ statistics – points, fouls, weight class, and more.

For more information visit DAKTRONICS.COM/TUFFSPORT
Score diving, swimming, water polo and synchronized diving/swimming in your indoor or outdoor facility

Select all amber, all red or alternating rows of amber and red digit colors

Available for indoor or outdoor use

HS-200 HORN START

Signal start tones and make announcements loudly and clearly

New wireless microphone technology increases freedom of movement with reduced interference

T-7000 SERIES TOUCHPADS

  - Score up to 199 points
  - Celebrate team spirit or recognize a valued sponsor on changeable corner panels
  - Pair with BB-2123, BB-2107 or BB-2105

BB-2121

- Digit sizes: 10" x 254 mm, 8" x 178 mm
- BB-2121: H: 2'-6" x 6" W: 10'-10" x 3912 mm
  - Score up to 199 points
  - Condensed design for venues with lower ceilings
  - Pair with BB-2125

BB-2101

- Digit sizes: 13" x 330 mm, 10" x 254 mm
- BB-2101: H: 4' x 6" W: 12'-10" x 3912 mm
  - Score up to 199 points
  - Celebrate team spirit or recognize a valued sponsor on changeable corner panels
  - Pair with BB-2103 or BB-2153

BB-2142

- Digit sizes: 10" x 254 mm, 8" x 178 mm
- BB-2142: H: 5'-3" x 10" W: 10'-10" x 3912 mm
  - Score up to 99 points
  - Celebrate team spirit or recognize a valued sponsor on changeable corner panels
MODULAR SCOREBOARDS

Decide what stats you want to show and make an impact with a large modular scoreboard.

### BB-2116 & BB-2117

- **Digit size:** 18”
- **Dimensions:** W: 3’-6” x D: 6” x H: 6’

  - Count down the Time Outs Left (T.O.L.)
  - Display team and player Fouls as well as individual Player Points
  - Score numerous sports with optional caption kits

### BB-2116 & BB-2119

- **Digit size:** 18”
- **Dimensions:** W: 3’-6” x D: 6” x H: 6’

  - Count down the T.O.L.
  - Display team and player Fouls
  - Score volleyball and wrestling with included Score/Match captions

### BB-2116

- **Digit size:** 18”
- **Dimensions:** W: 3’-6” x D: 6” x H: 6’

  - Use as a primary display or combine with either of the above stats modules

STATISTICS DISPLAYS

Track every player on the court for each team with electronic statistic displays.

### SD-2103

- **Digit size:** 7”
- **Dimensions:** H: 6’ x W: 3’-6” x D: 6”

  - Showcase up to 6 players with 6 digits each
  - Score volleyball with included reversible caption

### SD-2102

- **Digit size:** 7”
- **Dimensions:** H: 6’ x W: 3’-6” x D: 6”

  - Showcase up to 6 players with 5 digits each
  - Score volleyball with included reversible caption

### SD-2101

- **Digit size:** 7”
- **Dimensions:** H: 6’ x W: 3’-6” x D: 6”

  - Showcase up to 5 players with 5 digits each

ELECTRONIC CAPTIONS

Replace the vinyl captions on your statistic displays with optional electronic captions to quickly change between sports.

Weather always plays a factor when it comes to outdoor scoring, but with our weather-sealed digits you can spend more time focused on the game and less time worrying. Tested to withstand the harshest conditions, our scoreboards are protected against moisture, humidity, dirt, and corrosion, so you never have to miss a game.

Does your field host multiple sports? We’ve got you covered there too. Changeable caption panels add value and versatility, making it easier to switch from sport to sport.
10-INNING LINE SCORE WITH PITCH SPEED

Track 10 innings worth of action, including total Runs, Hits and Errors for each team, and catch every blazing fastball with a 100+ MPH speed of pitch display.

10-INNING LINE SCORE

Give a personal touch to your 10-inning scoreboard by selecting from numerous caption combinations to match your preferences.

BA-2029
- Digit size: 24" x 10", 18" x 4.57" mm
- H: 9'-4" (2845 mm) W: 36' (10973 mm) D: 8" (203 mm)
  - Display Time of Day or game clock along with batter number
  - Experience the most complete baseball scoring solution

BA-2028
- Digit size: 24" x 10", 18" x 4.57" mm
- H: 9'-4" (2845 mm) W: 36' (10973 mm) D: 8" (203 mm)
  - Choose At Bat, Hit/Error or Pitch Count caption
  - Track 100+ pitches for Home or Guest team
  - Make your pitcher the star of the show

BA-2127
- Digit size: 18" x 4.57", 15" x 3.81" mm
- H: 7’ (2134 mm) W: 25’ (7620 mm) D: 8” (203 mm)
  - Choose At Bat, Hit/Error or Pitch Count caption
  - Track Home or Guest pitches over 99 with optional 100’s digit
  - Display the same stats of the BA-2028 in smaller form

PITCH SPEED

To display pitch speed, you’ll need a radar gun system. Required for all scoreboards on this page and smaller pitch speed displays, the system uses a radar gun connected to an All Sport® 5000 controller to offer fans instant, accurate feedback on the speed of every pitch.

10-INNING LINE SCORE

MULTI-SPORT
Versatility and reliability combine into the best value for facilities hosting multiple sports.

PITCH DISPLAYS
Showcase your pitching talent and complement your scoreboard with Daktronics pitch displays.

MS-918
Digit sizes: 18" 457 mm, 15" 381 mm
- Indicate Ball, Strike, Out and Hit/Error
- Switch between Inning or Period with reversible caption panel

MS-3918
Digit sizes: 18" 457 mm
- Indicate Ball, Strike, Out and Hit/Error
- Display time-of-day or game clock
- Switch between Inning or Period with reversible caption panel

MS-915
Digit sizes: 15" 381 mm
- Display time-of-day or game clock
- Switch between Inning or Period with reversible caption panel
- Celebrate team spirit or recognize valued sponsors on the scoreboard face

MS-213
Digit sizes: 8" 203 mm
- Score baseball with optional Ball, Strike and Out captions
- Charge the internal batteries with smart charger for up to 14 hours of game play
- Experience wireless freedom with RC-200 controller

PITCH COUNT
BA-2023
Digit sizes: 15" 381 mm
- Record total pitches thrown to 99 for both teams
- A drop-in display with ad panel fillers that pairs with all standard scoreboard widths is also available

BA-2033
Digit sizes: 15" 381 mm
- Record total pitches thrown to 199 for both teams
- A drop-in display with ad panel fillers that pairs with all standard scoreboard widths is also available

BA-2031
Digit sizes: 18" 457 mm
- Record total pitches up to 99 for the team currently pitching
- A drop-in display with ad panel fillers that pairs with all standard scoreboard widths is also available

BA-2034
Digit sizes: 18" 457 mm
- Record total pitches up to 199 for the team currently pitching
- A drop-in display with ad panel fillers that pairs with all standard scoreboard widths is also available

PITCH TIME
TI-2032
Digit sizes: 24" 610 mm
- Count down between two programmable time values for in between pitches or in between innings
- Select time-of-day mode for added functionality

PITCH SPEED
TI-2010
Digit sizes: 18" 457 mm
- Count down game time with this two-digit clock
- Display speed of pitch to 99 MPH
MODULAR SCOREBOARDS

Build your personalized football scoring system by choosing from more than 80 clock, score and stat modules. Refer to the images below for a small sample of the endless possibilities.

- SPLIT CONFIGURATION
  - Optional 15” T.O.L. digits or changeable panels
- CLOCK OVER CONFIGURATION
  - Complete your scoring system with a game clock on top and scores/stats on the sides of a video display
- CLOCK UNDER CONFIGURATION
  - Keep all the vital game information visible while showing live game footage, stats or sponsors

- Digit size: 10” x 254 mm
- H: 3’-8” 1067 mm
- W: 6’ 1829 mm
- D: 8” 203 mm
- Add an optional, reversible Half/Inning caption panel
- Celebrate team spirit or recognize a valued sponsor on the scoreboard face
DISPLAYS & TIMING SYSTEMS

Keep track and field fans entertained with Daktronics LED video displays and timing systems.

VIDEO DISPLAYS
› Showcase live video of each event as well as colorful animations and advertisements
› Select a size and resolution that complements your scoreboard or makes a complete timing display on its own
› Refer to pages 18-19 for more information on Daktronics video displays

OMNISPORT® 2000E TIMING CONSOLE
› Select from 3 timing modes depending on the event: by lane, by place or by non-lane
› Time up to 8 lanes with the track button interface
› Print race results with built-in thermal printer
› Refer to page 79 for more information on the OmniSport® 2000e console

THIRD-PARTY COMPATIBILITY
› Integrate your display with FinishLynx®, Omega™ and Flash Timing photo finish timing systems for instant, accurate race results
› Show start lists, full competitor names and team affiliations by interfacing with track meet management software

TRACK CAPTIONS
When you purchase any of the following scoreboards, track captions are included on changeable panels:
OUTDOOR TRUSS, CLOCKS AND DOMES

Enhance the appearance of any outdoor display with a decorative truss. Trusses can be customized with metal graphics and lettering. Bring a classic feel to your scoring system with an analog clock, or add a decorative center dome or arch to the top of your scoreboard.

DA-1001
› Create visual interest with arch truss
› Choose from 9 different lengths
› Square truss also available

DA-1100
› Add a traditional clock to any display
› Choose from 3 different clock sizes

DA-1008
› Complement an SS-500HD audio cabinet with arch truss
› Choose from 7 different lengths
› Square truss also available

DA-1006
› Complement an SS-1500HD audio cabinet with arch truss
› Choose from 7 different lengths
› Square truss also available

DA-1205
› Get the most space for mascots, images and school/team names
› Choose from 10 different lengths
› Smaller domes available in the accent index

ARCHED ID PANELS
› Display team, school or facility name, or recognize valued sponsors
› Choose from 8 different widths to fit popular outdoor scoreboard sizes

INDOOR TRUSS AND PIPING

Lightweight aluminum truss and piping provide yet another way of making a display your own. Vary the number, length and spacing of the decorative elements for endless combinations.

DA-1500
› Connect displays for a uniform structural appearance
› Add a flourish above or below the display
› Choose from a variety of lengths

DA-1501
› Frame the display or connect multiple pieces with diagonal truss
› Get more space for team logos and lettering
› Choose from a variety of lengths

DA-1502
› Frame the display or connect multiple pieces with cross truss
› Get more space for team logos and lettering
› Choose from a variety of lengths
The All Sport 5000 and 5500 series controllers are rugged, versatile units designed for intermediate and large scoring systems. Both consoles have color-coded keys and a large backlit character display. The All Sport 5500 is for controlling ColorSmart scoreboards and compatible stats displays and shot clocks.

DAK SCORE MOBILE SCORING
The All Sport® MX-1 system controls Daktronics scoreboards with mobile devices and tablets (not included). Using Bluetooth® wireless technology, the DAK Score mobile app sends commands to an indoor/outdoor interface box, which then directly controls one or more scoreboards via wired or wireless signal.

ALL SPORT 1600
The All Sport 1600 series controllers are designed for basic scoring systems. Commonly used functions and a quick start guide are printed on the face of the controller.

RC-200
The RC-200 is a wireless control option for many smaller displays. The handheld unit operates using a 2.4 GHz radio with an internal antenna and a rechargeable battery.

RADIO COMMUNICATION
Radio control eliminates extra wiring from the All Sport® console to the scoreboard, saving time and money on installation. Daktronics 2.4 GHz spread spectrum radio has 500’ [152 m] line-of-sight signal range for indoor scoreboards and 1500’ [457 m] range for outdoor scoreboards. This option features five broadcast groups and 64 non-interfering channels. The multi-broadcast feature has great control flexibility, especially in multi-court facilities.

CHARACTER GENERATOR
The All Sport Character Generator (CG) is a lightweight portable device that allows coaches and athletes to get more from their game film. Real-time scoring data is overlayed onto game footage, improving the way games are evaluated and eliminating the frustration of having incomplete information on film.

AVAILABLE SPORTS
- Baseball
- Basketball
- Football
- Hockey
- Lacrosse
- Soccer
- Softball
- Tennis
- Volleyball
- Wrestling

REMOTE START/STOP
These handheld units provide a convenient and easy way to operate game clocks. The game clock remote manually starts and stops the game clock and sounds the horn. The shot/play clock remote is used for shot clocks in basketball and play clocks in football. It features a start/stop switch and buttons for two different reset times.

OMNISPORT® 2000e
The OmniSport® 2000 timing console is the first in the industry to use Ethernet connectivity, which dramatically simplifies setup. Three backlit LCD screens indicate current race information, lane status and completed lengths for up to 10 lanes. The console has multiple modes, such as those for track timing, and memory retention in case of accidental loss of power.

For more information on aquatics timing options, see the Daktronics aquatics catalog or visit Daktronics.com/aquaticsbrochure.

* ColorSmart scoreboard or ColorSmart-compatible display

NOTES:
1. Power requirements and weights shown are for the base scoreboard model; these values increase with white LEDs and options such as TNMCs and backlit captions.
2. 240 VAC models are available for most scoreboards – excluding ColorSmart – at half the indicated amperage (International Use Only).
3. This represents the minimum controller required for standard operation; upgrades are available on some models (AS 5000 is required for TNMCs).
4. Custom solar power systems are available for other scoreboards. Solar power performance will vary by season and location.
