

US GUIDANCE FOR COVID-19 ILLNESS OR EXPOSURE

SCENARIO 1

Regardless of Vaccination Status

- Have **symptoms** *OR*
- Medically directed to test *OR*
- Tested positive

For work site or other requirements, contact your HR partner

- Stay/Go home; no in-person work
If traveling for work, contact your HR partner
- **Isolate (Self Quarantine)**
- **Positive test**
 - No symptoms** – end isolation after day 5
AND wear a mask through day 10
Mask can be removed earlier than day 10 after 2 sequential negative tests 48 hours apart, taken after day 5
If symptoms develop isolation day count starts over
 - With symptoms** – may end isolation after day 5 **IF**
Fever free for 24 hours (without use of medication) **AND** symptoms are improving
Mask can be removed earlier than day 10 after 2 sequential negative tests 48 hours apart, taken after day 5

If symptoms have not improved by day 10, continue to isolate until they improve
If experiencing moderate* or severe* illness or have a weakened immune system, isolate through day 10
- Dak COVID ST Disability may apply; documentation required
Medical note, copy of test result, or picture of at home test result
- Inform Supervisor ASAP of medical guidance or changes
- Work from home may be approved

- Supervisor communicates known information to HR Partner and Leaves@Daktronics.com
- Management/HR/Safety will provide guidance when coworkers/ customers/vendors will be notified

Scenario 2

Regardless of vaccination status, as soon as you find out you were exposed*

Reminder COVID can develop up to 10 days after exposure

- Immediately start precautions:
 - Wear a mask from day 1 through 10
 - Watch for symptoms, practice good hygiene
 - Day 0 is the day of last exposure
 - Day 1 is first full day after last exposure
- If no symptoms
 - May continue in person work
 - Continue to watch for symptoms
 - Wear a high quality mask for 10 days when around others

 - Day 6 get tested – even if no symptoms
 - If negative, continue precautions as above through day 10
 - If positive, move to Scenario 1
- If symptoms develop at any time in days 1-10, move to Scenario 1

*DEFINITIONS

- **EXPOSED**
Meeting one or more of the following after contact with someone who tested or is presumed positive or exhibiting symptoms
 - Within 6 feet for 15 min within a 24 hour period
 - Direct physical contact (hugging, kissing)
 - Shared eating or drinking utensils
 - Contact with respiratory secretions (cough/sneeze)
- **Moderate Illness**
Experienced shortness of breath or had difficulty breathing due to COVID
- **Severe Illness or Weakened Immune System**
Hospitalized due to COVID
- If you are unsure if the symptoms are moderate or severe, or if you have a weakened immune system, speak to a healthcare provider for further guidance
