

VENUS CONTROL SUITE

FINDING HELP

Everyone needs help from time to time. Learning a new software program can be challenging, but Daktronics has provided a number of options for you to find help on your Venus Control Suite software.

FINDING HELP

1. Users can find support information within the Venus Control Suite software by clicking on the **Current User** and selecting **About** (see figure 1).
2. The About section allows users to find the manual, search our knowledge base, request assistance through MySupport, and request a callback from one of our software trainers by using contact a trainer (see figure 2).
3. Users may contact Daktronics for assistance by calling 1-800-DAKTRONICS. Customer Service hours are 7 AM to 7 PM CST, Monday - Friday.
